

## **Co Presidents' report for General meeting 21/8/2013**

**The recent school holidays saw front entrance refurbishment and the creation of additional car park spaces. Both contractors have done a great job. We thank Unity for her planning and coordination with this P&C funded project.**

**Posts for the shade cloth sails were also installed and, once the shade cloth is attached, will provide much needed shade in summer months over some of the lunch tables.**

**Caileen has completed a submission for funding from community building partnerships to part fund a solar project for the school . This is in line with our long term plan to be a carbon neutral school and would compliment the the commitment of \$20k of P&C funds to this cause and allocated in this years budget.**

**Kuring gai council is revisiting the crossing issue and has requested our feedback. Meeting to be confirmed but we will need parent support and move forward with a plan we are happy with. We are hopeful that the Council will see sense in keeping our children safe as they travel to and from school.**

**Planning for the 75<sup>th</sup> KPS celebrations is underway and Kirsten Knight is asking those interested in helping with the parent cocktail event to step forward. Local sponsors will be approached to support this event shortly.**

**Year 2 are well on their way to organising the Father's day breakfast and have the support of McGrath once again this year.**

**Year 6 movie night is also reaching the final stages of planning.**

**We are always thankful to the many parents who contribute to the vibrant activity of our school community.**

**Michelle O'Dea and Catriona Dixon  
P&C Co Presidents**
